

Canvas Team Formation Guide

AIAA 3111 · Teams of **2–4 members** · Join by **Oct 15 (Thu 23:59)**

Create a new group using **+ Group**, or join an existing empty project group together. Every teammate must join the same group.

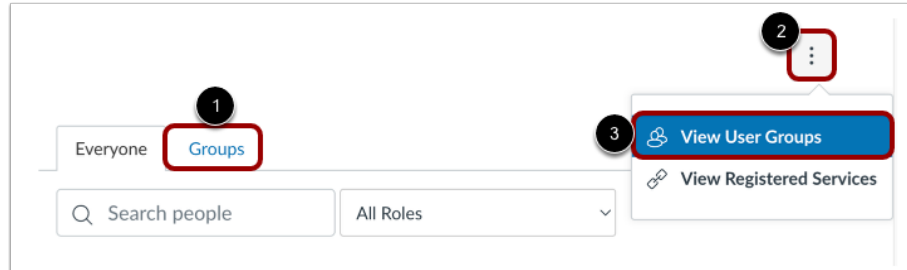

1. Open People

Enter the course and select **People**.

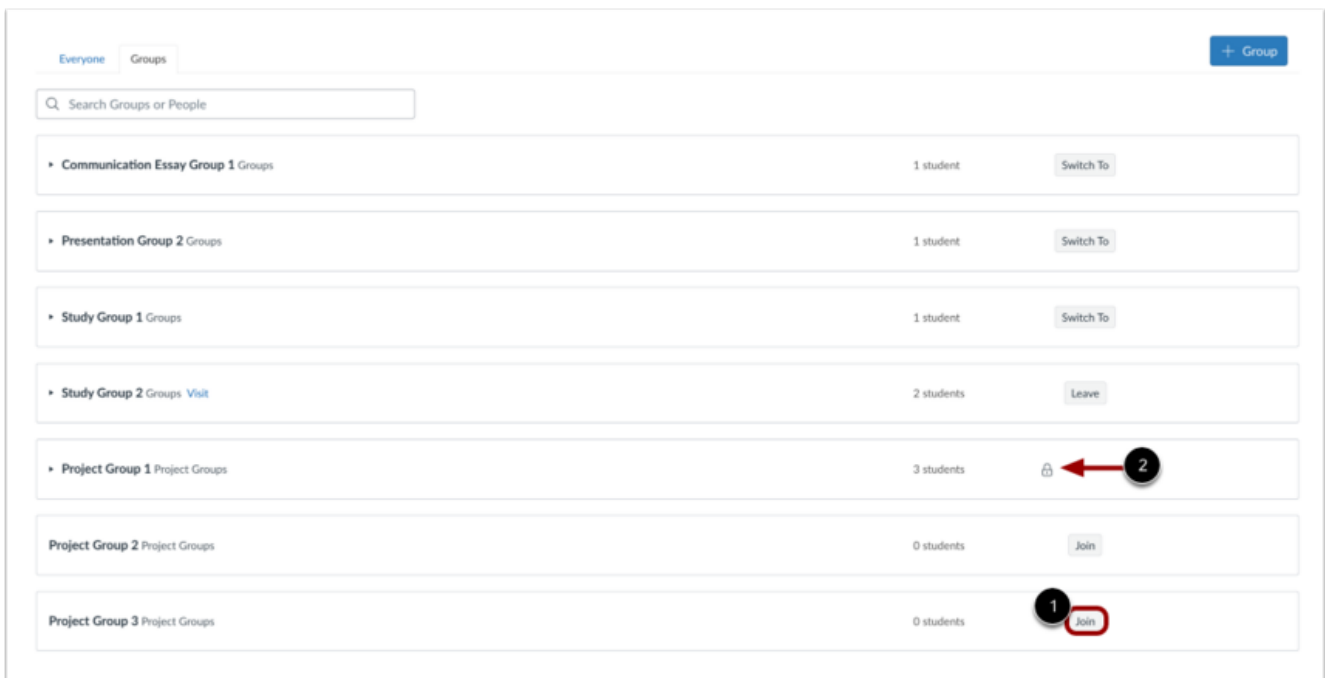

2. Open Groups

Select **Groups** [1]. Alternatively, use the menu [2] and **View User Groups** [3].

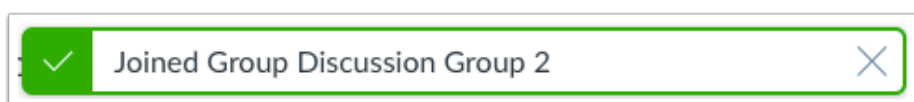

3. Join your agreed group

Use **+ Group** (top right) to create a group, or select **Join** [1] beside an empty group agreed with your teammates. A lock [2] means the group is full, unavailable or invitation-only.

4. Confirm membership

Look for the success message, then expand your group to check the member list.

Project submission: Our project assignments will be set as **Group submission**. Any one group member can submit on behalf of the team.

If the project group or Join option is unavailable, contact the TAs.
